What is the Emergency Housing Ordinance?

A land use regulation that allows faith based, non-profit and government organizations to site emergency housing facilities on their property.

Why the City Took This Action

The annual 2018 Point-in-Time Homeless Census found at least 320 people sleeping unsheltered in unmanaged conditions Downtown and in other parts of the city and county. The City routinely conducts an early morning count of people sleeping on the street in downtown, which finds 130 people on average living unsheltered within the core of Downtown.

The public has asked the City to take actions to address the issue of growing homelessness in our community. The recently passed Home Fund (sales tax levy) will help provide permanent supportive housing for the most vulnerable. However, it will be a few years before those funds will result in a completed project. Providing emergency housing in the meantime will help individuals experiencing homelessness as well as help to ensure a safe and inviting community for everyone. The City is looking to establish its own sanctioned temporary housing facilities, however it's going to also take action by others to effectively respond. This emergency housing ordinance allows for that.
