

# City of Olympia | Call for Public Art

## West Bay Drive Art Crossing

### Short Description

The City of Olympia is seeking an artist or artist team to develop site-specific artwork as part of the Olympia Art Crossings Project. **Olympia Crossings: An Art Plan for City Gateways** identifies eight locations for art, located along Civic Boulevards, based in neighborhoods but located at the primary thresholds approximately a mile from the center of downtown Olympia. The artist or artist team will be expected to develop an artwork in response to the neighborhood and community in which the artwork is located. A set of paired Markers are recommended at each site, scaled to be read at the scale of the boulevards. Placemaking is also required that is specific to the opportunities for each site, to enhance the pedestrian experience day and night. “Olympia Crossings” is the theme of the project and overarching concept. Artists are encouraged to contemplate and interpret this theme in the development of their artwork.

## General Description

### Introduction

The City of Olympia has collaborated with the arts management team of Framework Cultural Placemaking and Perri Howard to identify sites, concepts, and opportunities for artwork integration at the Olympia gateways. The City of Olympia has identified opportunities for an artist or artist team to develop site-specific artwork for each gateway and provide the following benefits:

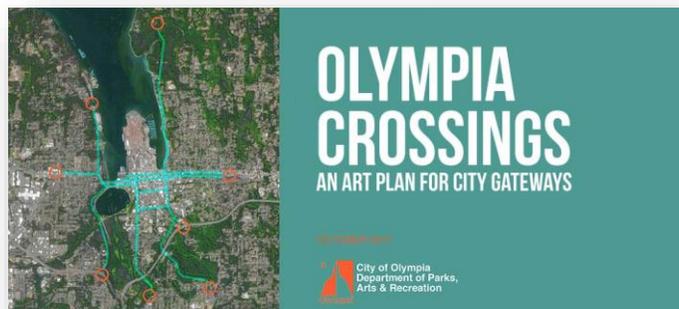

- A welcoming artwork that marks a threshold within or at the edge of the City of Olympia.
- Increased presence of arts and culture in Olympia's neighborhoods.
- Connections to nature, water, community assets, history and the place of Olympia as the State Capital
- A stronger sense of place and stronger relationship between adjacent neighborhoods.

## West Bay description

The three Neighborhood Associations closest to the project area are West Bay Drive, Burbank/Eliot and Northwest (NWONA). Of the three, NWONA is the largest, geographically, and in community participation. Meetings range from 40-140 in attendance, and the neighbors greatly value their social network and connectedness. Neighbors appreciate their area's individuality - in the architecture (from Victorian to Mid-Century Modern), and quirkiness of activities (from sounds of the Artesian Rumble Arkestra rehearsals to singing bicyclists in top hat and tails). They appreciate the topography of their area, from forested ravines to the fact that there are no arterials running through their neighborhood, leaving a maze of roads and alleys for exploration. Finally, they appreciate the natural world that inundates their community: frog chorus, deer and squirrels, the heron rookery, views of the water, cedar and fruit trees. They take pride that their neighborhood is not fancy, shiny or glossy, but simple.

### RECOMMENDATIONS

#### THEME

The overall theme is “Crossings,” with the art based on ideas of connecting, weaving together people and places; boulevards and gateways; land and water across time and topography.

#### PLACE MARKERS

Art at each site will include a pair of sculptural Markers, scaled to the boulevard and the city. The pairing of the Markers should reflect the idea of crossing.

The Markers should be made of multiple pieces, representing the interplay and crossings between individual and the whole; the crossing of thread within the fabric.

#### PLACE MAKING

Art at each site will include treatment at the human scale that considers the ground plane and elements that capture the specific opportunities of the site, and support the identity and public life of the neighborhood.

#### GROUND PLANE

Each Crossing location should address the ground plane in a way specific to the site. The treatment of the ground plane should draw on the idea of the connection and crossing.

#### LANDSCAPE

Include landscape as an integral and supportive element to the art, specific to the site.

#### SAFETY

Art should be designed to avoid any safety problems for people near the art or for drivers.

#### DURABILITY

Art should be of lasting materials, and easy to maintain.

#### DAY & NIGHT

Each of the crossings should be lit, with consideration to appearance during daylight and after dark.

#### ARTIST SELECTION

Include artists with a strong connection to Olympia, and nurture skills through mentoring where needed.

#### INITIAL PROJECTS

Select the first projects for a high level of visibility and community support. Consider early place making at sites scheduled for later implementation.

#### GUIDING THE PROCESS

Use the art crossings design process as a way to build community and foster creativity.

### Scope of Work

The selected artist or team will develop and create a new site-specific artwork in response to the West Bay Drive Crossing location, the adjacent neighborhoods, and in response to the theme “Olympia Crossings.”

The artwork may include a variety of diverse media including light, wayfinding elements, artist made amenities, or sculptural forms. The artwork should have a strong ongoing physical presence within the designated site area. The artwork must be suitable for diverse audiences and be able to withstand wet seasonal weather conditions. Artists are required to follow best practices as defined in the [Materials and Fabrication Handbook](#) developed by ArtsWA.

The artist will consider “Olympia Crossings” as it relates to the local community, the rest of the gateway system, and surrounding area. The artist will design and fabricate the artwork on a mutually agreed timeline with the City.
