Small Pick-Up

Material Type Definitions

Class I	Dry loosely piled grass, leaves, brush, twigs & small branches (under 2" diameter), or any combination of the above. (Hint: dry twigs will "snap" when bent.)
Class II	Loosely piled grass, leaves, brush, medium branches & brush (under 4" diameter), lawn clippings, clean lumber scraps, or any combination of the above.
Class III	Wet grass, leaves, densely stacked branches & brush, or any combination of the above.

Yard Waste Rates*

Material Types	1/2-yd	1-yd	1-1/2 yd	2-yd	2-1/2-yd	3-yd	3-1/2-yd	4-yd	4-1/2-yd
Class I	\$6.00	\$8.00	\$10.00	\$12.00	\$14.00	\$16.00	\$18.00	\$20.00	\$22.00
Class II	\$7.00	\$10.00	\$13.00	\$16.00	\$19.00	\$22.00	\$25.00	\$28.00	\$31.00
Class III	\$9.00	\$13.00	\$18.00	\$22.00	\$27.00	\$31.00	\$35.00	\$40.00	\$44.00

*Rates for the entire load will be based on an assessment of the amount and type of material it contains.

Metals and Extra Recycling

We accept scrap metal and mixed recyclables at no charge!

Now Accepting Recycling at the Drop-off Site:

Do you have extra recycling from a special clean out, a recent move or simply more than your cart can hold? Olympia garbage customers can now bring their extra recyclables at no charge to the Saturday Drop-off Site.

- Paper
- Aluminum and tin cans
- Plastic bottles, jugs, dairy tubs
- Plastic rigid flower pots
- Plastic buckets
- Glass bottles

Metals We Can Take ✓

- Car parts (whole removable parts only; doors, fenders, motors, etc.)
- Fencing
- Outdoor furniture
- Posts
- Tanks (see restrictions)
- Tools
- Wheels
- Wire

Metals We Cannot Take ✗

- Appliances
- Batteries
- Garbage
- Household tin cans
- Items containing hazardous fluids
- Metal mixed with plastic
- Paint cans
- Tires
- Vehicles
- Wood

Metals Restrictions

Fluids

All units containing fluids, such as oil, hydraulics, transmission fluids, gases, etc., must be properly drained.

Engines

All engines must be drained with pans off and filters removed.

Transmissions

All transmissions must be drained of fluid, pans off and no torque converter.

Propane Cylinders

Valve stems must be removed from cylinders and preferably a hole punched in the cylinders.

Tanks

Any tank other than hot water tanks or water pressure tanks must have a large hole cut into each end of the tank for visual inspection.

Customers are required to unload their own vehicles, so bring only what you can physically handle.
